

## Strategic Investment Grant Application

Project Title: \_\_\_\_\_

Project Director(s): \_\_\_\_\_ School: \_\_\_\_\_

Telephone: (work) \_\_\_\_\_ (email) \_\_\_\_\_

Date of submission: \_\_\_\_\_

### Target Population

Grade Level(s) : \_\_\_\_\_ # of Students Impacted: \_\_\_\_\_

# of Staff Impacted: \_\_\_\_\_

Curriculum: \_\_\_\_\_

Subject area: \_\_\_\_\_

Grant amount requested: \_\_\_\_\_

### How money will be spent *(circle all that apply & provide approximate breakdown):*

Curriculum development /stipend	
Technology/equipment	
Materials (e.g. books)	
Prof development/training (may include teach-the-teacher model)	
Outside consultant	
Other <i>(please specify)</i>	

Have you sent this proposal to other potential sponsors? \_\_\_\_\_

If yes, to whom? \_\_\_\_\_

**Signatures**

Project Director: \_\_\_\_\_ Date: \_\_\_\_\_

Principal(s): \_\_\_\_\_ Date: \_\_\_\_\_

**Grants Application (continued)**

**Please provide the following information to help us better understand your project. Concise statements and bulleted lists are encouraged.**

Please provide a brief description of the project:

How will this project/program enhance the learning of the students?

How, if applicable, will it be incorporated into the on-going curriculum? Across which classrooms and/or grades?

How does this project/program align with schools' and/or systems' teaching and learning goals and priorities?

Please list key implementation steps (*e.g., vendor selection, purchasing activities, training/ teach-the-teacher, lesson plan development, usage plans, etc.*):

What are the expected outcomes (i.e., what new skills will students obtain and/or strengthen?):

How can project effectiveness/impact be measured?

What, if any, on-going activities and/or maintenance costs that will be required to ensure success and sustainability of the project/program? *Please estimate any associated costs, and how the costs would be budgeted.*

How do you plan to retain and share knowledge/learnings with other teachers/staff?

What is the anticipated useful life expectancy of the grant?

**If applicable:**

Will the technology/equipment be housed within or outside of the classroom?

How will the use of the technology be incorporated into the core curriculum (eg., development of lesson plans, etc.)?

How will you train/prepare teachers for using this technology?

Do you have plans to pilot before a wide-scale purchase and/or rollout? If so, please describe briefly:
